

# Watershed Webcast

## “Porous Pavement Design, Installation & Maintenance”

Please Join Us  
For lunch and a webcast on  
Porous Pavement

Produced by the Center for Watershed Protection  
Hosted by the Upper Grand River Watershed Alliance

“You may love it or hate it, but permeable pavement as a stormwater BMP is here to stay. There have been many innovations in this technology that have allowed its use in different settings and that have responded to problems with past installations. Join this webcast and learn what the experts have to say about the various permeable pavement materials, designs, installation techniques, and maintenance. Don't worry -- they will also let you know whether permeable designs are ADA compliant and can bear traffic loads. This webcast is jointly hosted with the Chesapeake Bay Stormwater Training Partnership.”

All are invited

Please contact Paul Rentschler  
810-923-5278 or [prentschler@asti-env.com](mailto:prentschler@asti-env.com) to register,  
so that we can order lunch for you.

Date:  
**September 1,  
2009**

Time:  
**12 to 2 p.m.**

Location:  
**Jackson City Hall  
10th Floor Conference  
Room,  
161 W. Michigan Ave.**
